Is privacy still possible? For a lot of people, the answer is no. That cell phone in your pocket? It's leaving a digital trail. The Facebook quiz you took? It may be scraping your personal ...

The End Of Privacy : NPR

![[Figure]][1] IMAGE: WILLIAM DUKE At birth, your data trail began. You were given a name, your height and weight were recorded, and probably a few pictures were taken. A few years later, you were enrolled in day care, you received your first birthday party invitation, and you were recorded in a census. Today, you have a Social Security or national ID number, bank accounts and credit cards, and ...
