Myth #1: Psychotherapy with the elderly is time wasted, because the elderly client has so little time to enjoy any gains that might be made. Myth #2: The grief, loss, and somatic and socioeconomic burdens of the elderly are too excessive to warrant believing they could get better.

Psychotherapy with Older Adults

We practitioners need to become fluent and speak the same language as our gender nonconforming and transgender clients. In doing so, we demonstrate the intention of promoting respectful communication that expresses an intricate set of thoughts, ideas, and feelings associated with sex, gender, sexuality and identity.

Psychotherapy with Transgender Clients

Systematic studies of anterograde amnesia started to emerge in the 1960s and 1970s. The case of Henry Molaison, formerly
